DE laudibus artis Musicæ, Spectabiles & Præstantes Viri, Domini
colendissimi, multi multa dixere, quibus eius tam excellentiam & di
gnitatem prædicare, quàm studium omnibus commendatum reddere volue
runt, proposito quidem, si quis conatum spectet, magis laudando, quàm felici, utpote prius vix
ac ne vix quidem, posterius verò non tam suo elogio, quàm ipsius artis augusto decore ac blanda
maiestate, quæ duo admirationem & fauorem omnium facile secum trahunt, assecuti. Quotus
enim quisque est, qui contentu harmonico, etiam nullo præiudicio encomij lenocinio, non in stuporem & quodammodo ex
tra sese abripiatur, & quemadmodum Chium, ut est in proverbio, hedera suspensa non indigere, ita nec Musicam,
ecce lege Attica vallatam, commendationis procerulo, opus habere fateatur? Sed inquiet aliquis, hæc mihi meiq; simili
bus sic videri, quos nec vocationis professio alia re magis delectari, nec, ut maximè delectenter, fortunæ angustia alia
delectatione recreari sinat, longè verò aliam rationem eorum esse, quibus aut fors benignior affulserit, aut rerum guber
nacula huminis providentia commissa sint, quibus & occupationum multitudo & rerum affluentia facile musices fasti
dium pariat. Huic ego tametsi darem, nullum alium quàm in recreando & sic in otio Musices vsum esse, tamen si ex
aduerso concederet nihil absque alternatione quietis & laboris durabile esse, quietis verò, omnia atq; adeo voluptatis ra
tionem aliam alia honestiorem esse, persuaderem opinor (modò homo esset) primò, ut fallendi temporis rationem
laudatissimo Musices exercitio, quàm astragalus decentiorem duceret: deinde, ut mecum succenseret ijs, quorum aures
vsq; adeo aut delicatæ sunt aut occalluerunt, ut maiori audito concentu harmonico, quàm classico vel fortassis equi
hinnitu, bile ac nausea corripiantur, quos ego, quacumq; tandem in fortuna constituti sint, centaurosum quàm homi
num similiore, potiusq; ad Pelethrontos, quàm in Phocidem relegandos censo. Dauidem certe Prophetico Spi
ritu Regem, virumq; DEO desideratissimum, hystoria & Psalmi ipsius testantur, non opilionem modò vel exulem,
verùm etiam Regno iam inauguratum, ad eiusq; fastigium euectum, quinimo sanitarum nationum iam victorem ac
triumphatorem, ad Euphratem vsque propagatis imperij finibus, inter arduos instaurandæ religionis & constituendæ
politice labores, Musices admiratione & delectatione adeo sese non abdicasse, ut etiam seu numen precibus placaret,
ipsiusq; gesta & beneficia celebraret, seu in sacris obeundis reliquorum choragum ageret, seu panegyricum epiniciumue
canceret, seu cuiuscumq; alterius argumenti materiam tractaret, citharam & nablion numeris suis adhibuit, idq;
frax psallendum elegantissima prosopopœia subiude allocutus, ad symphoniam sibi præstandam inuitauerit.

Cuius exemplo cum Spectabilitates vestras, Ornatissimi & Honorati Viri, quamvis ad gubernationis Politicæ clauum etiam constitutas, Musices studium tamen sibi habere quam commendatissimum sciam, adeo etiam ut non solum in templis & scholis vestris circa religionis & pietatis exercitia id assidue personet, verum etiam ubi à functionibus Ciuilibus & Reipub: negotijs respirandi facultas quantulacumq; datur, honestissimum eius exercitium reliquis etiam inculpatis, delectationibus in conuentibus & festiuitatibus vestris præferatis, eiusq; practicos non minus peritos vos ostendatis, quam aliqui literarum & disciplinarum liberalium & politicarum cognitione honoratus ordo, vestester passim non immerito commendatur & celebratur: haud committendum mihi arbitratus sum, quin, cum impellentibus amicis & extraneorum etiam nonnullis operis huius, quo harmonias textibus Euangeliorum Dominicalium annuatim legi consuetorum excerptis adaptatas complexus sum, editionem adornarem, eam Spectabilitatum vestrarum nomini inscriberem dedicarem q. Huc accedit, quod cum Spectabilitatum vestrarum erga me fauorem, propensionem & beneuolentiam, ex quo in ipsarum manus lucubrationum mearum aliquid primùm peruenit, multis iudicijs cognouerim, hanc occasionem testificandæ erga easdem gratitudinis officij q. mei, ipsa etiam temporis oportunitate, quo hoc opusculum instar xenii esse posset, admonitus prætermittere non vulerim nec potuerim. Quod si Spectabilitates vestras ea gratia & fauore, qualem de iisdem mihi persuasi, hoc quicquid est suscepisse cognouero, perpetuæ gratitudinis officijs ac obsequijs sibi me indices magis magis q. deuincient & obstringent: Quas optime valere percipio.
